## Press release

Pontcharra, 18<sup>th</sup> November 2021

### **Cetetherm SAS France: ISO 9001:2015 certification**

#### **Pontcharra, France**

Today Cetetherm SAS has been awarded with the ISO 9001:2015 certification, the international standard for defining quality management systems.

The certification testifies that the Cetetherm SAS management system matches international standards and favors the continuous improvements in Cetetherm SAS.

« The ISO certificate is a true recognition of the quality of our work and our organization. The entire Cetetherm team is very proud that our state of mind is reflected in this certification, which is a proof of our commitment to satisfy our customers and to continuously improve our quality », says Jean-Michel Montoni, Manager of Cetetherm SAS.

The certification is issued by TÜV Nord that has made an independent third-party audit of the Cetetherm SAS management system.

The certificate is available on [www.cetetherm.com](http://www.cetetherm.com)

#### **About Cetetherm:**

**Cetetherm offers high-tech product expertise in tap water systems for collective boiler room applications and in district heating systems. Cetetherm was founded over 60 years ago and is today part of the Swedish NIBE Group. Production facilities are in France, Sweden, Czechia, Finland and Russia.**
